

ABSTRACT OF THE DISCLOSURE

[145] A system method for providing software integration for telecommunications offerings on-line procurement, including a first layer configured to receive at least one of a request and a user action from a web server; and a second layer coupled to the first layer and configured to perform at least one of order management, online ordering and user management functions. At least one of the first layer and the second layer includes software objects extended to support procurement of the telecommunications offerings on-line and custom software objects created to support procuring of the telecommunications offerings on-line.
